

# Valentines from the city of romance at J'Adorn

February is a month of romance, and nobody does romance like the Europeans. Make your way into J'Adorn for unforgettable Valentine's Day trinkets. J'Adorn has a fine selection of gifts for the deserving and discerning woman you're aiming to captivate.

You can't go wrong in the Perfumerie. The three scents available by Lady Primrose are all indescribable, and very exclusive. The Lady Primrose line was originally commissioned especially for the royal suites in Lanesborough London hotel, which is adjacent to Buckingham Palace. Now this luxurious brand graces the rooms of the finest five star hotels, and in the world's only seven star hotel, Emirates Palace in Abu Dhabi, United Arab Emirates. The scents are based on archival recipes dating back to the seventeenth century.

Choose from eau de parfum, dusting silk, body and moisturizing creme, shower and bath gel, hand wash and room spray. Packaging is gorgeous and of heirloom quality; antique replica decanters and sumptuous large body brushes have recyclable refill containers. Other possibilities include the exquisitely packaged Tokyomilk and Lollia products, such as hand-wrapped fragrant soaps and display-worthy perfume bottles.

Other boudoir-inspired treasures, imported from the Paris show, include heart and cherub themed ornaments from
