

# New fabulous creations in store at every turn in J'Adorn

Each month, fabulous new treasures from overseas arrive and await at J'Adorn. There are endless unique possibilities for "your home, your self, your life." Be sure to delight and titillate your senses with a visit to see the latest finds.

New statement pieces of furniture are sure to create a stir and envy among your friends! Of particular note is the mirrored polygonal dining table, with a stunning antique finish. Combine this amazing piece with hand-carved wooden reproduction dining chairs. Although there are several styles to choose from, the French burlap-upholstered chairs are especially gorgeous. Look for bedside tables, drawer chests, benches and other accent furniture throughout the store.

A selection of distinctive drawer pulls will enable you to embellish items already in your home. Mother-of-pearl handled silverware, wall sconces with hurricane crackle glass shades, shabby-chic mirrors, lacy embroidered window panels and bronze sculptures are just some of the latest items to add elegance to any room. Tiffany-inspired nesting boxes and antique dress form holders are the perfect accoutrement to a gift of beautiful jewelry, for those who love accessories. Everyone who has seen the pagoda-shaped umbrella wants one. You will too!

While in Paris, Corinne met trompe d'oeil

**Drawer pulls and scented sachets.**

artist Christophe Koziel, and J'Adorn now carries some of his awe-inspiring creations. Wall hangings imitating Parisian doors, window decals resembling ornate balcony railings, paired with a huge "window" depicting city buildings and monuments below a brilliant sky, creates the sensation of truly looking out over Paris. The work defies a worthy description, so Koziel's art is a must-see.
