

# From Paris to Kincardine, with love

It's time once again for students to return to the books, and **J'Adorn** has the perfect gifts for such occasion. Lovers of the art of print will revel in the exquisitely designed calligraphy supplies handcrafted in Italy by Rubinato. Gorgeous feather quills, antique inkwells, ornamental pen and card holders, and rich, vibrant inks are all found in a fabulous display reminiscent of a bygone era. Give the poet, musician, scholar or collector in your life a timeless gift they'll love. Choose a bold piece such as a peacock feather quill, or present someone special with a beautifully boxed complete set. Seek out the turquoise-hued, scented ink for something extraordinary, or the book, "How to Write a Love Letter", for something romantic. Enthusiasts of period pieces will love the selection of wax seal paraphernalia, including ornate wax sticks, burners and wooden-handled seals. Seals are available with initials or symbols, or blank to allow for personal engraving. There's a wedding-inspired wax seal kit, containing gold and silver wax and a seal depicting entwined wedding rings. There are also so many note card set designs to suit every taste, ensuring students return to school, and write home, en vogue. There's still enough warm weather for the garden, and J'Adorn has conversation-worthy topiaries, fountains, plaques, and urns for outdoors and indoors.

**Rubinato inkwell and quills.**

Concrete creations can be outside year round, while plaster pieces are more suitable to a solarium, but garden items are UV resistant. Make a statement in your yard!

Corinne is very excited to jet to the Trade Show in fashionable Paris this month! She's going to be looking for more incredible European gift and furniture items, and wants to explore some of the flea markets for authentic antiques and unique finds. Good luck, Corrine; can't wait to see what she brings back to J'Adorn!

J'Adorn 791 Queen St. Kincardine, 519-396-GIFT
